Southern Nuclear Operating Company
Vogtle Electric Generating Plant Units 3 and 4
Nuclear Development Quality Assurance Manual Changes

Ladies and Gentlemen:

This submittal is made with regard to the Vogtle Electric Generating Plant, Units 3 and 4 (VEGP 3&4), license numbers NPF-91 and NPF-92, pursuant to the reporting requirements of 10 CFR 50.55(f)(4)(i).

On April 8, 2022, Southern Nuclear Operating Company (SNC) approved Licensing Document Change Request (LDCR)-2022-015. This LDCR describes the evaluated changes to the Nuclear Development Quality Assurance Manual (NDQAM) for VEGP 3&4 to reflect clarifications for when the transfer of design authority from Westinghouse to SNC will occur, and the approach that will be taken for this transfer.

SNC considered the changes to the NDQAM in accordance with its internal procedures and 10 CFR 50.55(f)(4)(i). SNC confirms that, in keeping with 10 CFR 50.55(f)(4)(i), the changes do not reduce the commitments in the program description previously accepted by the NRC.

This letter contains no regulatory commitments. This letter has been reviewed and determined not to contain security-related information.

If there are any questions regarding this letter, please contact Mr. Anthony Parton at (706) 848-6930.

Respectfully submitted,

 for JMC

Jamie M. Coleman
