**Subject:** U.S. NRC Requests for Additional Information Regarding Framatome Topical Report, EMF-2310, Revision 1 Supplement 2P, Revision 0, "SRP Chapter 15 Non-LOCA Methodology for Pressurized Water Reactors" – EPID L-2022-TOP-0008

Mr. Gary Peters, Director  
Licensing and Regulatory Affairs  
Framatome, Inc.  
3315 Old Forest Road  
Lynchburg, VA 24501

Mr. Peters,

This e-mail serves as a cover letter for the transmittal of Requests for Additional Information (RAIs).

By letter dated February 24, 2022 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML22060A118), Framatome Inc. (Framatome) submitted for U.S. Nuclear Regulatory Commission (NRC) staff review and approval Topical Report (TR) EMF-2310, Revision 1, Supplement 2P, Revision 0, "SRP Chapter 15 Non-LOCA [Loss-of-Coolant Accident] Methodology for Pressurized Water Reactors" (ADAMS Package Accession No. ML22060A164).

With respect to the review of EMF-2310, Revision 1, Supplement 2P, Revision 0, I have placed an electronic version of the RAIs in the BOX.com folder for your review. Morris Byram, Framatome, has been given access to the folder. The RAIs have also been placed in ADAMS as non-public so it can be declared an Official Agency Record in the future. When responding to this RAI, please confirm if there is any proprietary information in the RAI and/or the response. Your response, provided via letter under authorized signature, will generate the ADAMS version of the RAIs based on the proprietary nature of the document. Our current schedule for this TR review assumes that Framatome will provide responses to the RAIs by August 10, 2022.

If you have any questions or would like to discuss the RAIs with staff to ensure you understand the NRC's request, please let me know.

This e-mail will be uploaded in ADAMS and declared publicly available.
