Louisiana Energy Services, LLC  
NRC Docket No. 70-3103

Subject: Urenco USA (UUSA) Classified Network Reaccreditation

References: 1) NRC Interim Authority to Operate Extension Till July 31, 2022 and Approval of the Supporting Plan of Actions and Milestones (ML22032A147) dated Feb 22, 2022  
2) LES-22-016-NRC, Response to IATO Specific Conditions 1 through 3 dated Jan 17, 2022

In the Reference 1 letter, the U.S. Nuclear Regulatory Commission (NRC) provided Louisiana Energy Services, LLC, dba Urenco USA (UUSA), interim authority to operate (IATO) its classified cyber networks. This IATO expires July 31<sup>st</sup>, 2022.

In the Reference 2 letter, UUSA responded to the NRC's request for additional information needed in order to grant a new authority to operate. With the information provided in Reference 2, UUSA has now either completed, or submitted a Plan of Action & Milestones detailing its plans to complete, the three specific conditions in the IATO.

UUSA requests the NRC's Chief Information Officer to authorize reaccreditation of the classified cyber networks for the processing up to and including Confidential Restricted Data. In the event that further evaluation is needed for reaccreditation of the classified cyber networks, UUSA alternatively requests the NRC extend expiration date of the Reference 1 IATO for an additional six months, for an extension expiration date of Jan 31<sup>st</sup>, 2023.

If you have any questions concerning this submittal, please contact Chris Schwarz, Licensing and Performance Assessment Manager, at 575.394.5783.

Respectfully,

Wyatt
