Dakota Dunes, SD 57049

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 40-34223-01

Dear Robert Monical,

By letter received April 18, 2022, you informed the U.S. Nuclear Regulatory Commission (NRC) that Siouxland Surgery Center, LLP, d/b/a Siouxland Surgical Hospital, wished to terminate NRC radioactive materials license number 40-34223-01. The NRC Form 314 dated March 31, 2022, stated that all radioactive material was decayed at least 10 half-lives and disposed of in accordance with regulatory requirements in 10 CFR 35.92, with records being maintained in accordance with the requirements of 10 CFR 35.2092.

The supporting documentation to the letter and NRC Form 314 provided copies of surveys and leak test results. The leak test results and radiation surveys confirmation from the NRC licensed entity showed that there was no evidence of leakage of radioactive material from the radiation sources and radiation surveys of the facilities and waste packages above background radiation levels. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from your facility. The facility located at 455 Sioux Point Road, Dakota Dunes, South Dakota 57049, is suitable for unrestricted use in accordance with 10CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 6 to License No. 40-34223-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

You can contact me at Latischa.Hanson@nrc.gov if you have any questions about this licensing action.

Sincerely,

Latischa M. Hanson, M.Sc., Health Physicist
Materials Licensing Branch
