

## PUBLIC MEETING ANNOUNCEMENT

**Title:** Workshop: SCALE/MELCOR Non-Light-Water Reactor (Non-LWR) Source Term Demonstration Project - Molten-Salt-Fueled Reactor

**Date(s) and Time(s):** September 13, 2022, 01:00 PM to 04:00 PM ET

**Location:** Teleconference

**Category:** This is an Information Meeting with a Question and Answer Session. The purpose of this meeting is for the NRC staff to meet directly with individuals to discuss regulatory and technical issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed throughout the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

**Purpose:** The NRC is sponsoring a workshop on the SCALE/MELCOR non-LWR source term demonstration project to prepare for safety reviews of non-LWR license applications. The workshop will cover the use of SCALE and MELCOR for modeling accidents for different classes of non-LWRs and include the following:

- An overview of the reactor class;
- SCALE methods for predicting core fission product inventory, decay heat, and reactivity feedbacks as well as sample SCALE results; and
- MELCOR methods for predicting core heat up and fission product release during an accident as well as sample MELCOR results.

A workshop on the molten-salt-fueled reactor will be held on September 13, 2022.
