

Dustin T. Hamman
Director Nuclear and Regulatory Affairs

August 08, 2022
RA 22-0061

U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555-0001

Subject: Docket No. 50-482: Revision of One Form that Implements the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

Commissioners and Staff:

In accordance with 10 CFR 50.54(q)(5), WCGS is submitting a change to the emergency plan. Specifically, one form that implements the WCGS RERP has been revised. The revised document is identified below:

<u>Forms</u>	<u>Effective Dates</u>
EPF 06-001-08, Rev. 3	July 11, 2022

The attached summary of the changes to the implementing form explains that these changes do not reduce the effectiveness of the WCGS RERP.

This letter contains no commitments. If you have any questions concerning this matter, please contact me at (620) 364-4204.

Sincerely,

A handwritten signature in black ink, appearing to read "Dustin T. Hamman", written in a cursive style.

Dustin Hamman

Senior Resident Inspector (NRC), w/a

Summary of Changes to One Form that Implements the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

1. Form EPF 06-001-08, "OFF-SITE COMMUNICATOR CHECKLIST," Rev. 3

Form EPF 06-001-08 is being revised to remove the need to distinguish between "normal" and "non-normal" working hour for ERO notifications. The standardization of the TSC activation to 75 minutes negates the need to distinguish between "normal" and "non-normal" working hours. The automatic dialing system (ADS) is to be used for ERO notification at all times.

This change includes two administrative changes. In the Emergency Notifications block, "Coffey County" was changed to "Coffey County Sheriff" and "Westar Generation Operations" was changed to "Evergy Generation Operations." These changes are being made to be consistent with the Immediate and Follow-up Emergency Notification forms.

These changes do not reduce the effectiveness of the Emergency Plan.
