

PREDECISIONAL ENFORCEMENT CONFERENCE SUMMARY

Licensee: International Isotopes, Inc. (INIS)
Facility: N/A
License No.: 11-27680-01MD
Docket No.: 030-35486
EA Case No.: EA-22-028

On July 27, 2022, representatives of International Isotopes, Inc. (INIS) met with the U.S. Nuclear Regulatory Commission (NRC) at the Region IV office located in Arlington, Texas, to discuss one apparent violation identified in NRC Inspection Report 03035486/2022-001, dated May 26, 2022 ([ML22146A362](#)). The conference was held at the request of the licensee and was closed to public observation because it involved security-related information. The conference was conducted in-person with some participants attending remotely via Microsoft Teams. The list of attendees is provided as an enclosure to this summary.

During the NRC's presentation, staff discussed the apparent violation that was described in the subject inspection report and provided an overview of the NRC Enforcement Program. The licensee presented a summary of the NRC's observations of the apparent violation during the inspection and the licensee's completed corrective actions. The licensee disputed the validity of the apparent violation and presented on how they believed they maintained compliance. At the end of the discussion, the NRC agreed to consider the additional information presented by the licensee during the meeting prior to making any final decisions on the pending enforcement.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this summary and its enclosure will be made available to the Public.
