SUBJECT: NOTIFICATION COMPLETION OF ACTIVITIES LICENSE NUMBER 43-35500-01

Dear Tony Mason:

By E-mail dated July 13, 2022, you provided notification to this office that you have terminated certain activities under the subject license at Naval Post Graduate School, Monterey, CA. On site subsurface sampling work was completed in March 2022 and the subsequent Investigative Derived Waste (IDW) from subsurface samples was controlled under authorizations of our license until picked up for disposal on June 13th, 2022. The IDW waste was determined by radiological analyses to only contain NORM but was still disposed outside of the State of California due to CA regulations of decommissioning materials not allowed to be disposed in the state. This notification was required by License Condition 19. No further actions regarding your notification are required. You can contact this office at Latischa.Hanson@nrc.gov if you have any questions about this letter.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Latischa M. Hanson, M.Sc., Health Physicist
Materials Licensing Branch
