SUPPLEMENTARY INFORMATION:

I. Discussion

ACU filed with the NRC pursuant to Section 104c of the Atomic Energy Act and Part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," an application dated August 12, 2022, for a construction permit for one research reactor proposed to be located in Abilene, Texas. The reactor is to be identified as the Molten Salt Research Reactor.

The application is available in ADAMS Package Accession No. ML22227A201, which includes the transmittal letter and the preliminary safety analysis report. The information submitted by the applicant includes certain administrative information, such as financial qualifications submitted pursuant to 10 CFR 50.33, "Contents of applications; general information," as well as technical information submitted pursuant to 10 CFR 50.34, "Contents of applications; technical information." The environmental report was also submitted as part of the preliminary safety analysis report.

The NRC staff is currently undertaking its acceptance review of the application. If the application is accepted for docketing, subsequent *Federal Register* notices will be issued that address the acceptability of the tendered construction permit application for docketing and provisions for participation of the public in the permitting process.

Dated: October 7, 2022.

For the Nuclear Regulatory Commission.
