The following Operator Licensing Manual Chapters (OLMCs) have been revised, placed in ADAMS as publicly available documents, and are available for use:

- OLMC-110, "Control of Operator Licensing Guidance Documents" (ML22216A191)
- OLMC-320, "IOLB Review of Initial Licensing Examinations" (ML22216A198)
- OLMC-520, "Operator Licensing Examination Records and Documentation" (ML22237A104)

CONTACT: Maurin Scheetz, NRR/DRO/IOLB

The revised manual chapters have been reviewed by the regions, and comments have been considered and incorporated where appropriate. The intent of the revisions is to reflect the current processes in use and to enhance consistency and efficiency across the regions and with IOLB. Specifically, OLMC-110 was updated to add information related to processing revisions to NUREG documents and feedback items on the NRC public website, OLMC-320 was updated to update references to Revision 12 of NUREG-1021, and OLMC-520 revised to correct editorial errors and identify documents that need to be added to the facility examination files in ADAMS that were inadvertently left out of the previous revision.
