Re: Radioactive Material License: 13-35276-01  
Radiotherapy Centers of Kentuckiana

To Whom it May Concern:

This letter is an amendment for the above mentioned radioactive material license. Please add the following to the license:

1. Please add Lu-177:
  - a. Lu-177 for use per 10 CFR 35.300 of FDA approved Pluvicto for the treatment of adult patients with advanced prostate cancer. This will be in liquid form, Lutetium-177 vipivotide tetraxetan with a possession limit of 3 Ci. A procedure for the use of this material will be written, approved by administration and kept on file at the facility. All aspects of the radiation safety program will be followed as needed.

If you require further information, please contact the Radiation Safety Officer, Sarah Hughes, at [sarahh72@yahoo.com](mailto:sarahh72@yahoo.com) or 502-552-5454.

Sincerely,

  
Tammy Feldpausch  
Practice Administrator
