**SUBJECT: ISSUANCE OF SUBSEQUENT RENEWED MATERIALS LICENSE NO.
SNM-2500 FOR THE MORRIS OPERATION INDEPENDENT SPENT FUEL
STORAGE INSTALLATION (CAC/EPID NOS. 001028/L-2020-RNW-0024)**

Dear Scott Murray:

The U.S. Nuclear Regulatory Commission (NRC) has issued subsequent renewed License No. SNM-2500 and the technical specifications (appendix A) for the GE-Hitachi Nuclear Energy Americas LLC (GEH) Morris Operation Independent Spent Fuel Storage Installation (GEH-MO). By letter dated June 30, 2020, as supplemented on February 26, 2021, March 19, 2021, March 24, 2021, January 27, 2022, and May 12, 2022 (Agencywide Documents Access and Management System (ADAMS) Accession Nos. ML20182A699, ML21057A119, ML21085A859, ML21083A200, ML22027A515 (proprietary)/ML22027A516 (public), and ML22132A071 (proprietary)/ML22132A072 (public)), GEH submitted an application to the NRC for renewal of License No. SNM-2500 for GEH-MO for an additional 20 years.

With the exception of the additional license conditions for aging management, the revised expiration date, and administrative clarifications to the license, there are no additional changes to License No. SNM-2500. Therefore, amendments that have been issued through Amendment No. 15 are incorporated into this license. The subsequent renewed License No. SNM-2500 expires on May 31, 2042.

The technical basis for issuing the subsequent renewed license is set forth in the enclosed staff's safety evaluation report. In connection with the issuance of the subsequent renewed license, an environmental assessment and finding of no significant impact was noticed in the *Federal Register* on November 17, 2022 (87 FR 69053). A notice of issuance of the renewed license will also be published in the *Federal Register*.

If you have any questions regarding this subsequent renewed license, please contact me at (301) 415-8064, or Kristina Banovac of my staff at (301) 415-7116 or Kristina.Banovac@nrc.gov

Sincerely,

Signed by Diaz-Sanabria, Yaira
on 11/22/22

Yaira K. Diaz-Sanabria, Chief
