William Peters, Ph.D.  
Radiation Safety Officer  
Niowave, Inc.  
1012 N. Walnut St.  
Lansing, MI 48906

SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR NIOWAVE, INC.,  
NRC LICENSE NO. 21-35145-01

Dear Dr. Peters:

In letter dated June 7, 2022, Niowave, Inc. notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 21-35145-01. Your letter is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML22164A030.

The NRC staff has reviewed your letter date June 7, 2022, and supplement information in the letter date August 9, 2022. Based on the review, the NRC staff understands that the location of uses authorized under your NRC Materials License Nos. 21-35144-02 and 21-35145-01 are the same; all licensable radioactive material has been transferred from License No. 21-35145-01 to License No. 21-35144-02; and all records discussed in Title 10 of the *Code of Federal Regulations* (10 CFR) 40.61(e) and 40.36(f), and records required by 10 CFR 19.13, 20.2103, 20.2106, 20.2107, and 20.2108 have been transferred to and will be maintained by Niowave, Inc. under License No. 21-35144-02.

Based on these conclusions, no further remediation or actions are required with respect to NRC-regulated material listed in NRC License No. 21-35145-01. Accordingly, NRC License No. 21-35145-01 is hereby terminated. A copy of the amended license—Amendment No. 6—is enclosed.

An environmental assessment for this action is not required because this action is categorically excluded under 10 CFR 51.22(c).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

W. Peters
