SUBJECT: TERMINATION OF NRC LICENSE FOR MOON PAK, M.D.

Dear Dr. Pak-Gorstein:

Enclosed is Amendment No. 02 terminating your father's NRC Materials License No. 21-32680-01 in accordance with your request.

With NRC Form 314 dated August 4, 2022, you contacted the U. S. Nuclear Regulatory Commission and indicated that you wished to terminate NRC Materials License No. 21-32680-01 for Moon Pak, M.D. You also included information supporting the decommissioning of the location of use at 811 Oakwood Drive, Suite 105, Rochester, Michigan.

The NRC staff has reviewed all of this information, including your final status surveys. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facilities and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required. The facility at 811 Oakwood Drive, Suite 105, Rochester, Michigan, is suitable for unrestricted use and NRC License No. 21-32680-01 is hereby terminated.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U. S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with Title 10 of the *Code of Federal Regulations* Section 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
