Docket No. 99902052

U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
One White Flint North
11555 Rockville Pike
Rockville, MD 20852-2738

SUBJECT: NuScale Power, LLC Submittal of Presentation Materials, Entitled "Carbon Free Power Project (CFPP) Combined License Application (COLA) Presentation Proposed Licensing Approach to Facilitate CFPP Early Construction (Closed Session)" PM-125009-P, Revision 0

REFERENCE: NuScale Power Letter to Nuclear Regulatory Commission, "Licensing Lead for Carbon Free Power Project, LLC," dated October 12, 2021 (ML21299A363)

NuScale Power, LLC (NuScale) on behalf of CFPP, requests a meeting with the NRC technical staff on September 13, 2022, to discuss the CFPP proposed licensing approach to facilitate early construction (i.e., construction prior to CFPP license issuance). The CFPP requests a closed meeting due to the proprietary nature of the information to be presented during the discussion.

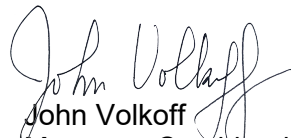

The purpose of this submittal is to provide presentation materials to the NRC for use during this meeting.

Enclosure 1 is the proprietary version of the presentation entitled "Carbon Free Power Project (CFPP) Combined License Application (COLA) Presentation Proposed Licensing Approach to Facilitate CFPP Early Construction (Closed Session) PM-125009-P, Revision 0." NuScale requests the proprietary version be withheld from public disclosure in accordance with the requirements of 10 CFR § 2.390. The enclosed affidavit (Enclosure 2) supports this request. The nonproprietary version is provided in a separate submittal, under letter number LO-124978.

This letter does not make any regulatory commitments or revisions to any existing regulatory commitments.

If you have any questions, please contact Kyra Perkins at 980-349-4117 or at kperkins@nuscalepower.com.

Sincerely,

John Volkoff
Manager, Combined License Applications
NuScale Power, LLC
COLA Support on behalf of CFPP, LLC

Enclosure 1: "Carbon Free Power Project (CFPP) Combined License Application (COLA) Presentation Proposed Licensing Approach to Facilitate CFPP Early Construction (Closed Session)" PM-125009-P, Revision 0

Enclosure 2: Affidavit of John Volkoff, AF-125011

LO-125010

Enclosure 1:

“Carbon Free Power Project (CFPP) Combined License Application Presentation (COLA) Proposed Licensing Approach to Facilitate CFPP Early Construction (Closed Session)”
PM-125009-P, Revision 0

LO-125010

Enclosure 2:

Affidavit of John Volkoff, AF-125011

NuScale Power, LLC

AFFIDAVIT of John Volkoff

I, John Volkoff, state as follows:

- (1) I am the Manager, Combined License Applications of NuScale Power, LLC (NuScale), and as such, I have been specifically delegated the function of reviewing the information described in this Affidavit that NuScale seeks to have withheld from public disclosure, and am authorized to apply for its withholding on behalf of NuScale.
- (2) I am knowledgeable of the criteria and procedures used by NuScale in designating information as a trade secret, privileged, or as confidential commercial or financial information. This request to withhold information from public disclosure is driven by the following:
 - (a) Use by a competitor of the information requested to be withheld would reduce the competitor's expenditure of resources, or improve its competitive position, in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product.
 - (b) The information requested to be withheld reveals cost or price information, production capabilities, budget levels, or commercial strategies of NuScale.
- (3) Public disclosure of the information sought to be withheld is likely to cause substantial harm to CFPP's competitive position and foreclose or reduce the availability of profit-making opportunities. The accompanying submittal reveals distinguishing confidential and pre-decisional aspects of NuScale's licensing strategy.

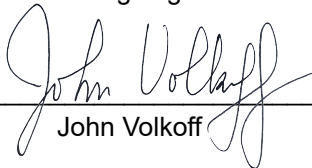

The precise financial value (loss) resulting from public disclosure of the information is difficult to quantify, but it is sensitive information related to NuScale's commercial strategy and, therefore, has substantial value to NuScale.

If the information were disclosed to the public, NuScale's competitors would have access to the information without purchasing the right to use it or having been required to undertake a similar expenditure of resources. Such disclosure would constitute a misappropriation of NuScale's intellectual property, and would deprive NuScale of the opportunity to exercise its competitive advantage to seek an adequate return on its investment.

- (4) The information sought to be withheld is in the enclosed presentation entitled "NuScale Power, LLC Submittal of Presentation Material Entitled "Carbon Free Power Project (CFPP) Combined License Application (COLA) Presentation Proposed Licensing Approach to Facilitate CFPP Early Construction (Closed Session)" PM-125009-P, Revision 0. The enclosure contains the designation "Proprietary" at the bottom of each page containing proprietary information.

- (5) The basis for proposing that the information be withheld is that NuScale treats the information as a trade secret, privileged, or as confidential commercial or financial information. NuScale relies upon the exemption from disclosure set forth in the Freedom of Information Act ("FOIA"), 5 USC § 552(b)(4), as well as exemptions applicable to the NRC under 10 CFR §§ 2.390(a)(4) and 9.17(a)(4).
- (6) Pursuant to the provisions set forth in 10 CFR § 2.390(b)(4), the following is provided for consideration by the Commission in determining whether the information sought to be withheld from public disclosure should be withheld:
- (a) The information sought to be withheld is owned and has been held in confidence by NuScale.
 - (b) The information is of a sort customarily held in confidence by NuScale and, to the best of my knowledge and belief, consistently has been held in confidence by NuScale. The procedure for approval of external release of such information typically requires review by the staff manager, project manager, chief technology officer or other equivalent authority, or the manager of the cognizant marketing function (or his delegate), for technical content, competitive effect, and determination of the accuracy of the proprietary designation. Disclosures outside NuScale are limited to regulatory bodies, customers and potential customers and their agents, suppliers, licensees, and others with a legitimate need for the information, and then only in accordance with appropriate regulatory provisions or contractual agreements to maintain confidentiality.
 - (c) The information is being transmitted to and received by the NRC in confidence.
 - (d) No public disclosure of the information has been made, and it is not available in public sources. All disclosures to third parties, including any required transmittals to NRC, have been made, or must be made, pursuant to regulatory provisions or contractual agreements that provide for maintenance of the information in confidence.
 - (e) Public disclosure of the information is likely to cause substantial harm to the competitive position of NuScale, taking into account the value of the information to NuScale, the amount of effort and money expended by NuScale in developing the information, and the difficulty others would have in acquiring or duplicating the information. The information sought to be withheld is part of NuScale's technology that provides NuScale with a competitive advantage over other firms in the industry. NuScale has invested significant human and financial capital in developing this technology and NuScale believes it would be difficult for others to duplicate the technology without access to the information sought to be withheld.

I declare under penalty of perjury that the foregoing is true and correct. Executed on September 08, 2022.

John Volkoff
