Your reference: Docket No. 71-9388 and EPID No. L2020-NEW-0003

Our reference: 0045-SVK-2022-001

Subject: Answers to RAIs for the review of the DN30-X package

Dear Mr. Saverot,

This letter is in response to your request for additional information (RAI, reference Docket No. 71-9388, EPID No. L2020-NEW-0003) from June 10th 2022.

We have revised the SAR 0045-BSH-2020-001 (now Rev2) to include additional calculations, explanations and clarifications in answer to the RAIs. An overview of our answers was discussed in the meeting on August 4 and is summarized in our presentation 0045-PRT-2022-006 for that meeting.

Due to the request to have a stand-alone SAR (no support from the DN30 SAR), we have restructured the complete SAR and added new appendices, especially for the technical analyses. It is important to note that this restructuring only consists of a reorganization of the SAR contents; any new or revised information in the SAR is in solely in answer to the RAIs.

The attached document 0045-BAR-2022-001 provides a guideline to our RAI answers. For each individual RAI, it contains a short summary of our answer as well as a reference to where the detailed answer is found in the SAR or its appendices. This document contains proprietary information.
