WASHINGTON, D.C. 20555-0001

September 28, 2022

Technical Specifications Task Force
11921 Rockville Pike, Suite 100
Rockville, MD 20852

SUBJECT: ACCEPTANCE FOR REVIEW REGARDING TRAVELER TSTF-592,
REVISION 0, "REVISE AUTOMATIC DEPRESSURIZATION SYSTEM
(ADS) INSTRUMENTATION REQUIREMENTS" (EPID L-2022-PMP-0011)

Dear Members of the Technical Specifications Task Force:

By letter dated July 19, 2022 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML22200A080), you submitted a request to the U.S. Nuclear Regulatory Commission (NRC) to incorporate Traveler TSTF-592, "Revise Automatic Depressurization System (ADS) Instrumentation Requirements," into the standard technical specifications.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that Travelers are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours have been billed accordingly. The NRC staff estimates that the review will require approximately 355 staff hours including project management time.

The NRC staff has completed a preliminary review of your submission and determined it is sufficiently complete and appropriate to initiate a more comprehensive review. The review will generally follow the schedule below.

MILESTONE	SCHEDULE DATE
Issue Request for Additional Information	December 16, 2022
Issue Draft Safety Evaluation	August 31, 2023
Issue Final Safety Evaluation	December 22, 2023

If you have any questions, please contact me at (301) 415-1774 or via e-mail to Michelle.Honcharik@nrc.gov.

Sincerely,

Michelle C. Honcharik,
Senior Project Manager Technical Specifications
Branch
Division of Safety Systems
Office of Nuclear Reactor Regulation
