General Comment

I am writing to strongly urge the NRC to change course and do not rollback on oversight for the Indian Point facility. Exemptions should not be made that would reduce accountability and increase likelihood of environmental and human disaster. Indian Point is so close to NYC and in a dense Westchester community.

Myself and my neighbors are very upset and completely puzzled as to why the NRC wouldn't want to maximize security and provide the strictest accountability possible. I have been kept in communication by our state representative Sandy Galef, and I endorse her views and recommendations as well.
