Re: License 11-27384-01

Dear Sir or Madam:

This letter is submitted in response to the NRC letter dated 09/20/22 regarding NRC's revised licensing guidance on Yttrium-90 microsphere Brachytherapy sources and Devices.

Portneuf Medical Center commits to follow the NRC guidance titled "Yttrium-90 Microsphere Brachytherapy Sources and Devices TheraSphere and SIR-Spheres Licensing Guidance, April 20, 2021, Revision 10.2, and applicable guidance updates

Please let me know if you require additional information.

Sincerely,

Tea Shi,

Radiation Safety Officer

Good Morning Casey,

We have reviewed and implemented Y-90 microsphere program according to revised guideline since last NRC inspection.

As such, please find in attached a letter that provides the statement of PMC's commitment to follow the revised guideline.

Thank you and have a nice day,

--Tea

Hi Tea,

Thanks for the info on the room. I don't have any additional questions on that. I do have one additional request for you.

Can you please commit to the following statement?

“Portneuf Medical Center commits to follow the NRC guidance titled “Yttrium-90 Microsphere Brachytherapy Sources and Devices TheraSphere and SIR-Spheres Licensing Guidance, April 20, 2021, Revision 10.2, and applicable guidance updates.”

Your previous license references this guidance from 2016. However this is a new revision. Here is a website with the new guidance <https://www.nrc.gov/docs/ML2108/ML21089A263.html>.

Once I have this commitment in a signed/ dated letter, I can proceed with issuing the license.

Thanks,

Casey Alldredge
Health Physicist

Materials Licensing Branch
