UNITED STATES NUCLEAR REGULATORY COMMISSION

Region III, Office of Materials Licensing 2443 Warrenville

Road Suite 210

Lisle, IL 60532-4352

RE: Additional Information Request

License Renewal

License Number: 13-32393-01

Control Number: 631731

Dear Mr. Kelly:

Please find the responses below to your email request dated 9/16/22 for additional information regarding the license renewal for The South Bend Clinic.

ITEM 1:

We confirm that the full legal name of the licensee is **The South Bend Clinic, LLC.**

ITEM 2:

The manufacturer of the survey meter probe is Ludlum and the model number is 44-7 (end window probe).

ITEM 3:

As the RSO, Ms. Updike is available by phone and email to respond to questions or operational issues that arise during the conduct of the radiation safety program and related regulatory requirements. If a situation arises where she cannot answer her phone and the facility needs an immediate response, they are instructed to call Medical Physics Consultants main office for assistance. If a situation occurs after office hours, MPC has an answering service that operates 24 hours a day, 7 days a week, 365 days a year. The amount of time for the RSO to physically arrive at the facility in response to an emergency involving radioactive material will vary depending upon her activities that day. A conservative estimate of the amount of time required for Ms. Updike to arrive at the facility is approximately 4 hours. A response by phone would be immediate. The facility in-house representative who will serve as the point of contact during my absence will be the nuclear medicine technologist on duty.

If you have any questions or require additional information, please contact our radiation safety officer, Sharon Updike at 517-795-8786 or by e-mail at supdike@mpcphysics.com.

Sincerely,

Anna Swanson

Anna Swanson, RT (R)(M)

Manager of Imaging Services

The South Bend Clinic
