Dear Dyan Youpee,

Please find attached a letter, dated August 19, 2022, by which the U.S. Nuclear Regulatory Commission (NRC) staff is notifying you of the availability of the draft Supplement to the Environmental Assessment (EA) for the renewal of source materials license number SUA-1534 for the Crow Butte Resources, Inc. (CBR) in-situ uranium recovery facility in Crawford (Dawes County), Nebraska.

As discussed in the letter, the attached draft EA Supplement is also publicly available from the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC website at <https://www.nrc.gov/reading-rm/adams.html>. The ADAMS accession number for the draft EA Supplement is ML22223A161.

The letter also notes that a Notice of Availability of the draft EA Supplement will be published in the Federal Register, and that the 30-day public comment period closes on September 26, 2022. The notice, which provides instructions on how to submit comments, will appear in the August 26, 2022, *Federal Register*.

Please contact me at 301-415-0867 or Jean.Trefethen@nrc.gov if you have any questions.

Regards,

Jean Trefethen,

Project Manager

U.S. Nuclear Regulatory Commission
