This is sufficient. Scott, we just need to get this email into the ADAMS package.

Betsy

Thanks, Scott. Due to an issue that Betsy helped us with that involved a correction to our license, the vendor's preparation of the radioactive solutions that are needed for this work was delayed. Consequently, Ameriphysics work is delayed and will not start until October 19 when the solutions are received. The estimated end date is October 28. Do you need a revised letter, or is this notification sufficient?

Dear Mr. Hansen:

Enclosed is the NRC's acceptance of your notification letter to initiate licensed activities in our jurisdiction, dated August 23, 2022. You will not be receiving a paper copy of the letter in the regular mail. You should save copies, either in electronic format or paper, for your records. Please contact me by email or at 610-337-5136 if you have any questions about this letter.

Please note that our physical office location and mailing address have changed. See the address below.

Thank you for your cooperation.
