John Kovaleski, Plant Manager  
DuPont Specialty Products USA, LLC  
8480 DuPont Road, B200  
Washington, WV 26181

**SUBJECT: DUPONT SPECIALTY PRODUCTS USA, LLC, REQUEST FOR ADDITIONAL  
INFORMATION, MAIL CONTROL NO. 632539**

Dear Mr. Kovaleski:

This is in reference to your letter dated August 2, 2022, requesting to amend NRC License No. 47-01876-01. In order to continue our review, we need the following additional information:

1. Your letter requested a change in the address from 8480 DuPont Road B24, Washington, West Virginia to 8480 DuPont Road B200, Washington, West Virginia. Based on our understanding of your facility, it would appear the B200 building may be the location of the proposed Radiation Safety Officer, or at least the mail routing for him, rather than the specific location of the radioactive material (referenced on the Form 313, Item 3). Please confirm if you wish for *only the mailing address*, quoted on your license as License Condition 2, to be amended to reflect the "B200" building number. As a reference, License Condition 10 authorizes a location (the entire 8480 DuPont Road facility) for NRC-licensed materials to be used or stored.
2. Your letter indicates Mr. Herbert Whitlatch, the present Radiation Safety Officer, will remain for at least transitional activities. Please confirm if you wish for Mr. Whitlatch to be removed as an Authorized User under License Condition 11.

We will continue our review upon receipt of this information. Please reply to my attention at:

Mail Control No. 632539

In order to continue prompt review of your application, we request that you submit your response to this letter within 15 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: [www.nrc.gov](http://www.nrc.gov). Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at (610) 337-5256 or via electronic mail at [Jason.vonEhr@nrc.gov](mailto:Jason.vonEhr@nrc.gov).

Thank you for your cooperation.

Sincerely,

Jason vonEhr, Health Physicist
