2022

GLE submitted in May of 2022, a request for continuance of GLE's Interim Authorization to Operate (IATO) the classified cyber network (Ref 1). GLE received that IATO from the NRC. The approval was contingent on specified conditions, until November 1, 2022. The specified conditions continue to be met including updates to GLE's plan of action and milestones (POA&M) for transition from NIST SP 800-53 Rev. 3 to Rev. 5. Our next update to the POA&M is due in mid-Dec.

Our IATO is only valid till Nov. 1, 2022; your approval of our request is needed prior to this date.
