Eunice, NM 88231

SUBJECT: ACCEPTANCE OF LOUISIANA ENERGY SERVICES RISK ASSESSMENT
FOR CLASSIFIED NETWORKS (ENTERPRISE PROJECT IDENTIFIER L-2021-
LLL-0007)

Dear Wyatt Padgett:

The U.S. Nuclear Regulatory Commission (NRC) staff has reviewed the Louisiana Energy Services (LES), dba URENCO USA (UUSA), letter "Submittal of Risk Assessment Report for Classified Systems," dated October 7, 2021, (Agencywide Documents Access and Management System Accession Number (ADAMS) Accession No. ML21286A133, Non-Public). The staff has also reviewed your response to the request for supplemental information submitted via letter dated December 21, 2021 (ML21361A044) and held discussions with UUSA staff on the draft requests for additional information (RAIs) during a site visit held on April 19-21, 2022 (ML22126A158, Non-Public).

On August 7, 2022, LES submitted "Louisiana Energy Services, dba URENCO USA (UUSA) – Response to RAI Regarding LES Risk Assessment for Classified Networks," (ML22250A641, Non-Public). The application and other supporting documentations identified above were reviewed as part of this assessment.

Based on the review, the NRC staff determined the UUSA Risk Assessment is approved with the following two conditions: (1) UUSA must update the risk assessment to address significant changes to the facility, and (2) UUSA must provide a response to a plan of action and milestones by March 31, 2023, see details in the attached enclosure. The NRC staff's basis for approval is documented in the enclosed authorization assessment report.

This letter concludes work on the UUSA Risk Assessment. The Enterprise Project Identification Number L-2021-LLL-0007 will remain open to support future authorizing official related activities.

This document transmits an enclosure containing sensitive, unclassified information. When separated from the enclosure, this document is decontrolled.

W. Padgett

2

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available for public inspection in the NRC Public Document Room or from ADAMS. ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions regarding this communication, please contact me at (301) 415-7154, or via email to Matthew.Bartlett@nrc.gov.

Sincerely,

Signed by Bartlett, Matthew
on 11/07/22

Matthew Bartlett, Senior Project Manager
Fuel Facility Licensing Branch
