Hi Randolph,

I certified that each device at the ESC is labeled as require. Attached is an example of this label from Room C110.

	Manufacturer	Date	Detector Model #	Source Serial #	GC Model, Location
C110	Agilent Technologies	10/07	G2397A	U12633	AG6890N, Rm

Subject: RE: EPA R3 ESC Canceling License 19-14125-01 NRC Form 313

Jose Jimenez,

I am starting to work on the report and termination of your specific license. For some reason, the action was not assigned to me, but now I have it back. But, I have been informed by my colleagues that I need to make sure that before I terminate the license, I must verify that each device is labeled as follows: (Note, the words do not have to be exact, but substantially the same)

The receipt, possession, use, and transfer of this device Model _____,² Serial No. _____,² are subject to a general license or the equivalent and the regulations of the U.S. NRC or of a State with which the NRC has entered into an agreement for the exercise of regulatory authority. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited.

CAUTION--RADIOACTIVE MATERIAL

(Name of manufacturer, or initial transferor)²

Can you verify to me that each of the devices has a label like this? If so, please email me back the confirmation.

Hi Everyone,

On August 24, 2022, a letter was submitted to the NRC requesting cancelation of NRC License 19-14125-01. A NRC Form 313 was requested to proceed with the cancelation. Attached is completed NRC Form 313 and original letter.
