

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
REGION I
475 ALLENDALE ROAD – SUITE 102
KING OF PRUSSIA, PA 19406-1415

October 13, 2022

Chris Vorwald, Vice President
Applied Technical Services, Inc.
1049 Triad Court
Marietta, GA 30062

SUBJECT: APPLIED TECHNICAL SERVICES INC., REQUEST FOR ADDITIONAL
INFORMATION, MAIL CONTROL NO. 632519

Dear Mr. Vorwald:

This is in reference to your application dated August 5, 2022, requesting to amend NRC License No. 10-35278-01. In order to continue our review, we need the following additional information:

Please provide documentation that the proposed new Radiation Safety Officer has 2000 hours of hands-on experience as a qualified radiographer for industrial radiographic operations, as required by 10 CFR 30.34(a)(2). Although you submitted a list of “NDT Experience Hours”, the acronyms were not defined and it appears that some of those hours may be related to other non-destructive testing methods than industrial radiography authorized by the Nuclear Regulatory Commission.

We will continue our review upon receipt of this information. A pdf response may be attached to an email sent to the attention of:

kristen.bonds@nrc.gov

Reference – Mail Control No. 632519

In order to continue prompt review of your application, we request that you submit your response to this letter within 21 calendar days from the date of this letter.

An electronic version of the NRC’s regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at <http://www.nrc.gov/materials/miau/med-usetoolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC’s “Rules of Practice,” a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC’s document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a

license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact Kristen Bonds at (610) 337-5383 or via electronic mail at kristen.bonds@nrc.gov. Alternately, you may contact me at (240) 704-4575 or by email to Elizabeth.Ullrich@nrc.gov.

Thank you for your cooperation.

Sincerely,

Betsy Ullrich, Senior Health Physicist
Commercial, Industrial, R&D
and Academic Branch
Division of Radiological Safety and Security
Region I
