

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS UNITED STATES AIR FORCE  
WASHINGTON DC

12 October 2022

U.S. Nuclear Regulatory Commission (NRC)  
ATT: Document Control Desk  
Washington, DC 2055500001

The Department of the Air Force  
Air Force Medical Readiness Agency  
7700 Arlington Blvd; Suite 5151  
Falls Church, VA 22042-5151

The NRC issued Notice of Violation, EA-22-007 to the Air Force on 22 September 2022 and required a written response within 30 days of the date of the letter. The Air Force drafted a thorough response. Due to internal routing requirements, the Air Force requests a 30-day extension and a new suspense date of 21 November 2022.

My point of contact for this request is Lt Col Christina Peace, Air Force Radioisotope Committee Secretariat, who can be reached at [christina.peace.mil@health.mil](mailto:christina.peace.mil@health.mil) or 703-681-7876.
