28641/2021-005; and 030-28641/2021-006**

Dear Col. Gogate:

On September 22, 2022, the U.S. Nuclear Regulatory Commission (NRC) issued Notice of Violation, EA-22-007, to the United States Air Force (USAF) which described 14 violations of NRC requirements associated with activities conducted under the USAF Master Materials License (Agencywide Document Access Management System (ADAMS) Accession No. ML22265A247). Pursuant to 10 CFR 2.201, "Notice of Violation," the USAF is required to submit to the NRC a response to Violations A through K within 30 days describing the reason for each violation, the corrective steps that have been or will be taken, and the date when full compliance will be achieved.

On October 12, 2022, the USAF requested an extension to the deadline for providing a written response to the Notice included in EA-22-007 (ML22286A197). Your request discussed the internal routing requirements at the USAF and sought a new response date of November 21, 2022.

The NRC reviewed your October 12, 2022, request in accordance with the NRC Enforcement Manual, Part I, Section 2.4.4, "Licensee Response to Escalated NOVs." I have determined, after consulting with the Administrator, NRC Region IV, that the USAF has shown good cause for an extension of 30 days to the response for EA-22-007. Therefore, your request to extend the response date for EA-22-007 to November 21, 2022, is granted.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the ADAMS, accessible from the NRC public website at <http://www.nrc.gov/reading-rm/adams.html>.

S. Gogate
