The current Advisory Committee on Reactor Safeguards Charter (ACRS) expires on December 02, 2022. The Federal Advisory Committee Act (FACA) requires that advisory committee charters be renewed every 2 years. Under FACA rules, a committee is prohibited from meeting or otherwise conducting business without a current charter.

The attached renewal Charter is provided for Commission approval. The Charter has been reviewed by the General Services Administration Committee Management Secretariat and it conforms to their charter guidelines. The Office of the General Counsel has reviewed the charter and has no legal objection. A redline version is also attached for your convenience.

Please review and indicate your concurrence to renew.
