LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. During this inspection, certain of your activities, as described below and/or attached, were in violation of NRC requirements, and were assessed at Severity Level IV, in accordance with the NRC Enforcement Policy.
 - A. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy were satisfied.
(Non-cited violation(s) was/were discussed involving the following requirement(s))

 - B. The following violation(s) is/are being cited in accordance with NRC Enforcement Policy. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.
(Violations and Corrective Actions)
See Continuation Page.

Statement of Corrective Actions

I hereby state that, within 30 days, the actions described by me to the Inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

Materials Inspection Report (Continued)

License Condition 12 of NRC license 04-35652-01E. Amendment No. 0, dated May 17, 2022, requires in part, that the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed in License Condition 12. License Condition 12A, Application dated August 18, 2021, provides an example of package labeling in Attachment 4b.

Attachment 4b, packaging example has the licensee's name and the byproduct material (Kr-85) used listed on the packaging.

Contrary to the above, between May 17, 2022, and August 23, 2022, the licensee failed to conduct its program in accordance with Application dated August 18, 2022, Attachment 4b. Specifically, the licensee failed to include in the label the byproduct material (Kr-85) contained in the product prior to distribution of the exempt product.

This is a Severity Level IV violation (Enforcement Policy 6.3.d)

The licensee committed to preparing labels with the byproduct information (Kr-85) and placing on the product packaging prior to shipping to exempt customers until the manufacturer can correct the product labeling in accordance with the licensee's application submitted to the NRC dated August 18, 2021.
