Re: Canceling of Inspection 2022-001

A remote inspection of Geo-Logic Associates, Inc. was initiated on 8/15/2022. The NRC received a request to terminate their license on 7/19/2022. A Region 4 MIB inspector inspected Marianas Geotech Services the week of 8/1/2022 to confirm that Marianas Geotech Services now have possession of and ownership of the gauges in Guam that were previously owned by Geo-Logic Associates, Inc. This transfer of ownership of the gauges occurred in 2018. Since Geo-Logic Associates, Inc. no longer possesses licensed material in NRC jurisdiction, they have requested termination of their NRC license and with the approval of MIB's Branch Chief, the inspection has also been terminated.
