Docket No. 50-263  
Renewed Facility Operating License No. DPR-22

Withdrawal of Request for Relief from ASME OM Code for the Sixth Inservice Testing Interval

Reference: 1) Monticello Nuclear Generating Plant Relief Request dated March 7, 2022,  
(EPID L-2022-LLR-0030) Accession Number ML22067A084

Northern States Power Company, a Minnesota corporation, doing business as Xcel Energy (hereafter "NSPM"), requested approval of a proposed alternative to the American Society of Mechanical Engineers (ASME) Code for Operation and Maintenance of Nuclear Power Plants (OM Code), 2017 Edition with no Addenda. The relief request is associated with the Monticello Nuclear Generating Plant (MNGP) sixth 10-year IST interval, which started on October 1, 2022.

The purpose of this letter is to formally withdraw Request VR-08 (Reference 1). On October 27, 2022, the Final Rule incorporated ASME Code Case OMN-28 to 10 CFR 50.55a, for use effective November 28, 2022. The incorporation of this ASME OM Code Case removes the necessity for the request of Reference 1.
