Good day -

This should cover it. Please let me know if you've received all 3 e-mails.

Good day -

Crosswalks are attached for 2015. These should be largely the same as when the regulations were in proposed form, as even for regulations altered for final form, the reference state regulation number will be the same. One final e-mail will include crosswalks for 2018 and for open comments.

Good day -

I have been attempting to send final regulations to your mailbox and AgreementStateRegs.Resource@nrc.gov, but I keep getting it kicked back. Either there are too many crosswalks attached to it, it will not accept the PDF of the final stamped regulations, or some other file type issue. Could you please advise the best method of getting you these files?

It reads 5.3.0 - Other mail system problem 541-'5.4.1 Content blocked by Internal Firewall'.

I am attempting to send it piecemeal. If this works, please expect another set of emails containing the other documents.
