Dear Brandi O'Brien

I am responding to your October 18, 2022, submittal requesting our review and comment on the draft Completion Review Report (CRR) for the removal of Mine Units (MU) 1 through 9 from the license for the Irigaray site, part of the Willow Creek Project (Wyoming Source Material License No WYSUA-1341) located in Johnson County, Wyoming. We appreciate the opportunity to comment on this draft version of the CRR.

NRC staff reviewed the draft CRR, and the references listed in Section III of the draft CRR and have no comments or questions. We look forward to receiving your final CRR in assisting us to make the final concurrence determination. We appreciate the Wyoming Department of Environmental Quality's efforts to follow the suggested format in NMSS SA-900. The use of this format facilitated our review of the draft CRR.

If you have any questions or comments, please contact Marti Poston at 817-200-1181 or Martha.Poston-Brown@nrc.gov.

Sincerely,

A handwritten signature in blue ink that appears to read "Bethany Cecere".
