

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

November 16, 2022

Mr. James F. Renner, P.G.
The Chemours Company
Manager of Environmental Stewardship
2649 Zero Bay Road Patterson, GA 31557

I want to express my appreciation to you and your team for providing tours of the Chemours Mission and Offerman Mineral Separation Plant during my staff's October 2022 visit to the Chemours facility. Your insights on mine operations, ore separation, mineral processing, and the various non-nuclear end uses for products proved most useful in helping my staff gain a better understanding of the plant's capabilities. Again, thank you for reserving a full day to the NRC for hosting this tour and please accept this NRC Coin as a small token of my appreciation.

Sincerely,

A handwritten signature in dark ink, appearing to read "Peter J. Habighorst".

Signed by Habighorst, Peter
on 11/16/22

Peter J. Habighorst, Acting Deputy Director
Office of International Programs
