Pittsburgh, PA 15203

SUBJECT: CARDIAC IMAGING SOLUTIONS, LLC, REQUEST FOR ADDITIONAL  
INFORMATION, MAIL CONTROL NO. 633328

Dear Mr. Czachowski:

This is in reference to your letter dated October 25, 2022, requesting to amend NRC License No. 37-28520-01. To continue our review, we need the following additional information. Please be aware that all "Item", "Section", and "Appendix" references below are referring to NUREG 1556, Volume 9, Revision 3, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Medical Use Licenses" found at the following address:  
<https://www.nrc.gov/docs/ML1925/ML19256C219.pdf>.

Item 7, Authorized Users (AU) – Your amendment request letter requested adding an individual, Cory Smith, D.O., as an AU. Your request included the preceptor attestation portion of the NRC Form 313A (AUD), but did not include the other information required for adding an AU under the acceptable pathways. A search of our internal systems shows there is a Dr. Cory Smith listed as an AU on the current amendment of United Hospital Center's NRC License No. 47-01458-01 for the requested uses. Please confirm or provide the following:

- a. Please confirm that the Cory Smith, D.O., you are requesting to add to your license is the same Cory Smith, D.O., currently on NRC License No. 47-01458-01.
- b. If this is not the same individual, please provide the necessary information requested on NRC Form 313A (AUD) for an alternate pathway of approval, such as by board certification or training and experience.

We will continue our review upon receipt of this information. Please reply to my attention at [Jonathan.Pfingsten@nrc.gov](mailto:Jonathan.Pfingsten@nrc.gov).

In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: [www.nrc.gov](http://www.nrc.gov). Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and

guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at 610-337-5170 or via electronic mail at [Jonathan.Pfingsten@nrc.gov](mailto:Jonathan.Pfingsten@nrc.gov).

Thank you for your cooperation.

Sincerely,

Jonathan Pfingsten, Senior Health Physicist  
Medical and Licensing Assistance Branch  
Division of Radiological Safety and Security  
Region I
