The Governor Juan F. Luis Hospital & Medical Center would like to provide formal notice of intent to Renew the Materials License under the governance of the U.S. Nuclear Regulatory Commission due to expire on December 1, 2022. We are pleased to report our sealed radioactive sources have been regularly maintained and inventoried in accordance with our license agreement.

Services provided through Nuclear Medicine have remained unchanged and will not resume on December 1, 2022, as previously drafted. Nevertheless, our hospital still remains steadfast in working through these challenges to re-start medical use for the island and all those we serve.

Thank you for your continued support through this process. Please do not hesitate to contact us with any supporting documents needed to renew our license.

Respectfully,

Davia King-Wattley  
Radiology Supervisor
