Comments: A regulatory basis contains the justification for the rulemaking; describes the issues that must be addressed; provides the scientific, technical, legal, or policy information that supports the rulemaking; and provides a basis for informed decisions during the rulemaking process. The NRC published a notice in the Federal Register on November 9, 2022 (87 FR 67571) requesting public comments on the subject regulatory basis. The regulatory basis document is available in the NRC's Agencywide Documents Access and Management System at Accession No. ML22108A004.

The NRC provides reasonable accommodations to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in a meeting or need a meeting notice or the transcript or other information from a meeting in another format (e.g. braille, large print), please contact Anne Silk, NRC Reasonable Accommodations Coordinator, at Anne.Silk@nrc.gov or call directly at 301-287-0745. Determinations on requests for reasonable accommodation will be made on a case-by-case basis. Ten (10) days' advance notice is requested to try to ensure availability; however, every effort will be made to address a request for reasonable accommodations with less notice.
