Sam,

During our meeting on 24 October, part of our discussion centered around 10 CFR 117.10 (a)(7), Determination of eligibility for access to classified information for contractor employees. You were going to follow up with your legal personnel to see if their interpretation of this section is the same as yours, or if we would need to submit a waiver for this item. I'm just following up to see if any determination had been made. We believe we are very close to wanting to submit Piketon's portion of the GAP analysis on the docket, but would like to have this cleared up prior to submission.

If you have any questions or would like to discuss this, please call or email me.

Thank you,
