

United States Nuclear Regulatory Commission

Attn: Shawn W. Seeley

Health Physicist

Division of Nuclear Materials Safety

Subject: Rio Piedras Sononuclear Center, Certification

NRC License No. 52-24937-01

License Modifications Request

Dear Mr. Seeley:

We would like to request the following amendments to our license. Please advise if you need anything further from our side to complete these requests.

1. Add the **10 CFR 35.300** to Authorized user **Jorge Toro , M.D.** so he can administer unsealed byproduct materials for which written directive is required. Reason for this is that Dr. Toro will be participating in a Investigational New Drug protocol, accepted by the FDA. For the moment this new drug isotope is Actinium-225.
2. Remove the following Authorized Users from our facility License: **Jose O. Morales, M.D.** and **Angel J. Torres-Noya, M.D.**

Sincerely

Dr. Jorge Toro Ramirez

Medical Director

Rio Piedras Sononucler Center
