**Subject: Tennessee Valley Authority – Radiological Emergency Plan and Central  
Emergency Control Center Emergency Plan Implementing Procedure Revision**

In accordance with the requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) 50.54(q) and 10 CFR 72.44(f), Tennessee Valley Authority (TVA) is submitting a description of changes to the TVA Radiological Emergency Plan (REP). The affected document is the Central Emergency Control Center (CECC) Emergency Plan Implementing Procedure (EPIP) listed below.

<u>Document</u>	<u>Revision</u>	<u>Title</u>	<u>Effective Date</u>
CECC EPIP-14	38	Nuclear Emergency Public Information Organization and Operations	11/02/2022

## **Description of Changes and Summary Analysis**

### **CECC EPIP-14**

TVA revised this EPIP as follows:

- Attachment 7, "Information Release Process"

Clarified applicability of notes on the review and approval form for Information Release in Section 2.0. Changed wording from "Each reviewer should" to "Each reviewer must" to clarify that review of one's technical area is not optional.

The above changes were evaluated in accordance with 10 CFR 50.54(q)(3). TVA determined that the changes did not reduce the effectiveness of the TVA REP. The TVA REP, as revised, continues to meet the requirements in Appendix E to 10 CFR 50 and the planning standards of 10 CFR 50.47(b).

There are no new regulatory commitments contained in this letter. Please address any questions regarding this submittal to [slrymer@tva.gov](mailto:slrymer@tva.gov).

Respectfully,
