Dr. Salmon:

I have reviewed the amendment request dated November 14, 2022. Please submit a diagram or drawing of the proposed Hot Lab with additional detail. Please label areas where radioactive materials are received, prepared, and stored. Identify available sinks, fume hoods, L-block, shielded cave, dose calibrator, waste storage cabinets, etc. An example of the level detail needed is provided in Figures 8-3 and 8-4 of U.S. NRC NUREG-1556, Volume 9, Rev. 3.

Please provide a written response to this request within 15 calendar days. In the response, please reference U.S. NRC Materials License No. 13-02128-03 and Control Number 633566 to ensure proper routing. You may submit the response letter directly to me via e-mail, but I recommend that you request an e-mail receipt or other acknowledgement that the response has been received.
