Good morning Casey,

Those eleven locations are our offices, and I thought they needed to be listed in case we were to perform any work on NRC sites.

The new mailing address is listed below:

Earth Systems
P.O. Box 4259
San Luis Obispo. Ca. 93403
Attn. Juan Landron

I hope that clarifies everything. Please feel free to reach out with any other questions you may have.

Regards,

Juan Landron

Security Warning!This message is from outside the Earth Systems Organization.

Good morning Juan,

I am reviewing your letter dated October 15, 2022 informing us of eleven new locations. It appears that each of these locations is in California and are not in NRC jurisdiction (some military bases or tribal lands within Agreement States are in NRC jurisdiction). If that is the case, these won't be listed on your NRC license. However, based on the information in your letter it appears that your mailing address may have changed. Can you confirm what the mailing address is?

If you have any questions, please let me know.

Thanks,

Casey Alldredge
