Subject: DUPONT POLYMER PRODUCTS, LLC, REQUEST FOR ADDITIONAL INFORMATION FOR NEW LICENSE APPLICATION, LICENSE NO. 47-01876-02, MAIL CONTROL 633416

Dear Ms. Ullrich:

This response is in reference to your letter dated November 21, 2022, requesting follow up information to a change in control of part of our licensed activities authorized by NRC License No. 47-01876-02. Please find below the following information in response to your questions:

2. a. The facilities for which DuPont Polymer Products, LLC, will be responsible for will be limited to the MPW Production area. The building numbers for this area are as follows: B251, B252, and B256. The Radiation Safety Office, Herbert Whitlatch, has an office in B280 but supports all areas operated by DuPont Polymer Products, LLC.
- b. Control of the facilities under the new license will be maintained in the same manner as it was under the old license. Site Policies, Procedures, and Responsibilities remain in place for all employees to continue to follow. The footprint for the areas operated by DuPont Polymer Products, LLC will be smaller now that we no longer own or operate the Delrin Production Area.

We thank you for your attention to this matter. If you have any questions or need additional information, please do not hesitate to contact Herbert Whitlatch at (304) 863-2906.

Best Regards,

Ryan A. Birge
EH&S Manager
Washington Works, DuPont Polymer Products USA, LLC.
