Re: License Amendments

Mr. Parker,

Please amend our accelerator production license (No. 21-35632-01) in accordance with the following specific requests:

1. Add zirconium-89 as follows:

Radionuclide	Zr-89
Chemical/Physical Form	Any
Maximum Possession Limit	5 Ci
Authorized Use	For manufacture of radiochemicals and radiopharmaceuticals. Packaging and distribution of manufactured radiochemicals and radiopharmaceuticals to persons authorized to receive the licensed material in accordance with the terms and conditions of specific licenses issued by the U.S. Nuclear Regulatory Commission or any Agreement State.

2. During a review of the financial assurance letter (dated March 24, 2021) submitted with our initial application, we noted that the physical address of our facility is not specifically included and only our previous business address (400 Monroe Ave NW, Grand Rapids, MI, 49503) is listed. The intent of the letter was to cover decommissioning activities at the physical address of our facility as is implied. However, to make it clear, we have attached a new financial assurance letter from Michigan State University dated November 1, 2022, that specifies the physical address of our licensed facility at 109 Michigan St. Grand Rapids, MI, 49503.

109 Michigan St. NW
Suite 110
Grand Rapids, MI 49503

3. The legal name of our company has changed from BAMF Health, LLC to BAMF Health, Inc. This change is only related to our name and it does not involve a change of control/ownership or a transfer of the license in any way.

Please contact Mark A. Sitek, MS, CHP, at mark.sitek@bamfhealth.com or 949-939-2641 with any questions.

Thank you,

Importance: High

Hi again, Sandy and Martha,

On this one, can we have two separate ADAMS documents? One should be the FA document. The other should be the other document. Both ADAMS files should have the emails.

Thank you again!!

Tammy

Good afternoon, Sandy and Martha,

Can you please add the attached to ADAMS?

Thank you!!

Tammy

Bryan/Tammy,

Please see the attached letter for multiple amendments to our accelerator production license No. 21-35632-01 (Docket 030-39267).

Thank you,

Mark
