Re: Guidance Regarding Interpretation of Nuclear Power Reactor Vehicle Barrier Requirements

Dear Ms. Zobler:

According to the U.S. Nuclear Regulatory Commission (NRC) Staff, the NRC's Office of General Counsel (OGC) recently (in 2021 and/or 2022) provided guidance to Staff regarding interpretations of regulatory requirements and/or policies associated with physical protection of licensed activities at nuclear power reactors as to land vehicle barriers and land vehicle barrier systems, including but not limited to the requirements in 10 C.F.R. § 73.55(e)(10)(i) and (r)(4). I hereby request that OGC's guidance regarding such interpretations be provided to me.

If there are any questions regarding this submittal or if additional information is needed, please contact me.

Sincerely,

s/ Paul M. Bessette
