Gentlemen:

Our Nuclear Materials License No. 52-21026-01 expires in April 3, 2023. It is our understanding that sites which have been authorized by NRC for a period of ten years, can request a license extension for an additional five years.

Since that is the case at Ryder Memorial Hospital, we wish to submit our request for such extension.

Please advise on any additional information we may be required to submit.

Yours truly,
