December 2, 2022

Heather Lucier  
Senior Engineer & Corporate RSO  
DTE Electric Company – Fermi 2  
6400 N. Dixie Hwy.  
Newport, MI 48166

SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR DTE ELECTRIC  
COMPANY, U.S. NRC LICENSE NO. 21-02335-05

Dear Ms. Lucier:

In your letter dated September 22, 2022, and the accompanying NRC Form 314, "Certificate of Disposition of Materials," and your subsequent letters dated October 27, 2022, November 3, 2022 and November 23, 2022, you notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate U.S. NRC Materials License No. 21-02335-05.

The requests identified that all licensed radioactive materials have been appropriately transferred for disposal. Documentation of the transfer/disposal of radioactive materials was reviewed. Based on this review, it appears that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current U.S. NRC criteria.

Based on this conclusion, no further remediation or actions are required with respect to U.S. NRC-regulated material. Your facility is suitable for release to unrestricted use, and U.S. NRC Materials License No. 21-02335-05 is hereby terminated.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (CFR) Section 51.22(c).

In accordance with 10 CFR §2.390 of the U.S. NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the U.S. NRC Public Document Room or from the U.S. NRC's ADAMS, accessible from the U.S. NRC's website at <https://www.nrc.gov/reading-rm/adams.html>.

If you have questions, please contact me at (630) 829-9737 or [Jason.Kelly@nrc.gov](mailto:Jason.Kelly@nrc.gov).

Sincerely,

Jason M. Kelly, MPH  
Health Physicist
