

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

REGION III  
2443 WARRENVILLE RD. SUITE 210  
LISLE, IL 60532-4352

December 5, 2022

Thomas Killingsworth  
Radiation Safety Officer  
Michigan Department of Transportation  
Construction Field Services Division  
P.O. Box 30049  
Lansing, MI 48909

Dear Mr. Killingsworth:

This letter is in reference to the request dated October 13, 2022, signed by Lindsey Renner, Construction Operations Engineer, to amend your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 21-03039-01.

The U.S. NRC's guidance document for your proposed type of license is NUREG-1556, Volume 1, Rev. 2, dated June 2016, "Consolidated Guidance About Materials Licenses, Program – Specific Guidance About Portable Gauge Licenses." This guidance is available on the U.S. NRC website at: <https://www.nrc.gov/docs/ML1617/ML16175A375.pdf>

Upon review of the request, I identified the following area requiring additional or clarifying information:

The amendment requests a reduction in your licensed authorization following the transfer/disposal of 10 Troxler Electronic Laboratories Model 3400 Series portable gauging devices.

Please submit records reflecting the completed transfer/disposal of the licensed devices, including records of receipt and current leak test records with an acceptable result.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) §2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

To continue review of your request, please submit your response to this letter within 15 calendar days from the date of this letter. In your response, please refer to the license, docket, and control number specified below. I will assume that you do not wish to further pursue this licensing action if I do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, I encourage you to contact me at (630) 829-9737 or via e-mail at [Jason.Kelly@nrc.gov](mailto:Jason.Kelly@nrc.gov).

Sincerely,

Jason M. Kelly, MPH  
Health Physicist  
Materials Licensing Branch
